Budget 2025

BUDGET OVERVIEW

The coalition has made its multi-billion-euro pitch to voters ahead of the general election, with an €8.3bn Budget comprising €1.4bn in tax cuts and €6.9bn in new spending.

Finance Minister Jack Chambers said the changes to personal income taxes would support low and middle-income earners.

A range of tax changes and one-off measures announced in the Budget should leave most people better off.

Included in the raft of measures is an increase in the entry point for the higher rate of tax, a number of hikes in social welfare payments and a series of once-off payments to deal with the cost of living.

The Government is increasing the main tax credits – the personal, employee and earned income credits – by €125 each.

This means the maximum employee tax credit for 2025 will be €2,000 for a single person.

There is also a €2,000 increase in what is called the standard rate cut-off point. This means workers will be able to earn more before paying the top tax rate of 40% as the standard rate cut-off point goes from €42,000 to €44,000.

And Mr Chambers reduced the Universal Social Charge (USC) middle rate from 4% to 3%
